Dear sudhakavya Bodapati Venkata

Thank you for providing a review of the following paper.

Submission ID: 2439

Title: An Expert-Informed Labeling Framework for Supervised Power Quality Anomaly Detection on Real Building Data

The program committee acknowledges your time commitment and expertise in the ECCE 2026 review process.

We appreciate your contribution to the success of 2026 IEEE Energy Conversion Conference and Expo

Thank you,

Technical Program Committee

2026 IEEE Energy Conversion Conference and Expo

ECCE 2026 Review Completion Acknowledgement

Dear sudhakavya Bodapati Venkata

Thank you for providing a review of the following paper.

Submission ID: 2565

Title: Data Center Electric Power Estimation Based on Generative AI Synthetic Data for System Design and Grid Integration

The program committee acknowledges your time commitment and expertise in the ECCE 2026 review process.

We appreciate your contribution to the success of 2026 IEEE Energy Conversion Conference and Expo

Thank you,

Technical Program Committee

2026 IEEE Energy Conversion Conference and Expo

ECCE 2026 Review Completion Acknowledgement

Dear sudhakavya Bodapati Venkata

Thank you for providing a review of the following paper.

Submission ID: 1932

Title: Aging and Efficiency Aware Multi-Objective Scheduling for PV-BESS Under PV and Load Forecast Uncertainty

The program committee acknowledges your time commitment and expertise in the ECCE 2026 review process.

We appreciate your contribution to the success of 2026 IEEE Energy Conversion Conference and Expo

Thank you,

Technical Program Committee

2026 IEEE Energy Conversion Conference and Expo

Dear sudhakavya Bodapati Venkata

Thank you for providing a review of the following paper.

Submission ID: 1431

Title: Conduction Loss Reduction Method Based on Third Order Harmonic Injection for Dual Active Bridge in Solid State Transformer

The program committee acknowledges your time commitment and expertise in the ECCE 2026 review process.

We appreciate your contribution to the success of 2026 IEEE Energy Conversion Conference and Expo

Thank you,

Technical Program Committee

2026 IEEE Energy Conversion Conference and Expo

Dear sudhakavya Bodapati Venkata

Thank you for providing a review of the following paper.

Submission ID: 1450

Title: Mechanism Analysis of DC-Voltage Timescale Dynamics Generation Dominated by Current Control in a High-Proportion DFIG-WT System

The program committee acknowledges your time commitment and expertise in the ECCE 2026 review process.

We appreciate your contribution to the success of 2026 IEEE Energy Conversion Conference and Expo

Thank you,

Technical Program Committee

2026 IEEE Energy Conversion Conference and Expo

Dear sudhakavya Bodapati Venkata

Thank you for providing a review of the following paper.

Submission ID: 1423

Title: Design of Vector Proportional-Integral (VPI) Controllers in Active Power Filters

The program committee acknowledges your time commitment and expertise in the ECCE 2026 review process.

We appreciate your contribution to the success of 2026 IEEE Energy Conversion Conference and Expo

Thank you,

Technical Program Committee

Dear sudhakavya Bodapati Venkata

Thank you for providing a review of the following paper.

Submission ID: 1363

Title: Assessment of Generator Shaft Torsional Fatigue Due to AI Data Center Load Variability

The program committee acknowledges your time commitment and expertise in the ECCE 2026 review process.

We appreciate your contribution to the success of 2026 IEEE Energy Conversion Conference and Expo

Thank you,

Technical Program Committee
