Dear SudhaKavya Bodapati Venkata,

Greetings!!

On behalf of the Organizing Committee, it is my distinct honor to invite you to serve as a Session Chair for the International Conference on Intelligent Computing and Sustainable Technologies (ICST 2026). The conference will be held on August 01-02, 2026, at the Indian Institute of Technology (IIT), Patna, India. Given your distinguished background in Emerging Technology, we believe your expertise would be an invaluable contribution to the success of this international event.

We are delighted to inform you that ICST 2026 will bring together leading researchers, academicians, scientists, and industry professionals from across the globe to share their latest research findings and innovations in the fields of intelligent computing, sustainable technologies, and related interdisciplinary areas.

The conference proceedings will be published in the SCOPUS-indexed Springer Book Series "Lecture Notes in Networks and Systems". This will provide an excellent platform for researchers to disseminate their work to the global scientific community.

As a Session Chair, your responsibilities will include evaluating each research paper presented in your assigned session and assigning appropriate scores. Your assessments will play an important role in determining the Best Paper Awards for the respective session/track. Please note that your session will be conducted online via Google Meet.

As a token of appreciation for your valuable contribution, a Certificate of Session Chair will be presented to you. We would be honored by your participation and kindly request you to confirm your acceptance of this invitation at your earliest convenience.

Warm regards,

Dr. Jagdish Chand Bansal

General Chair

International Conference on Intelligent Computing and Sustainable Technologies (ICST 2026)
